83 Main St . Hornell, NY 14843

winner announced **June 30, 2022**

1. St. Ann's Academy would like to thank our sponsors who have made this raffle possible:
 - a. **Brian and Jill May of Valley Apparel and Designs, and**
 - b. **Regina Gambino of Howard Hanna Real Estate**
2. All of the proceeds will benefit the students at St. Ann's Academy, Hornell, NY, whose mission it is to provide a Catholic education in the Hornell area so that our children can learn in an environment that enables them to become well-grounded spiritually and exceptional academically.
3. St. Ann's Academy admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school.
4. A \$20 donation gives one chance to win the grand prize which is a pair of E-bikes, with a total value of \$2,400.
5. A maximum of 1,000 tickets will be sold.
6. Tickets are available at school (41 Genesee St), from parents, teachers or Board members, or online at www.SAAcademy.org
7. Credit cards, Paypal and Venmo are accepted at www.SAAcademy.org
8. One winner will be randomly selected on June 30, 2022.
9. A digital "wheel of chance" from www.wheelofnames.com will be used to randomly determine the winner and it will be video-recorded for future reference.
 - a. Is the computer wheel of chance really random? Technically, computers use pseudo-random number generators (PRNGs) but for all practical purposes, yes, it is. When you

click the wheel, it accelerates for exactly one second, then it is set to a random rotation between 0 and 360 degrees, and finally it decelerates to a stop.

- b. Is the random rotation truly random? Yes. The random number is created by the random number generator built into your browser's Javascript engine.
 - c. If tickets are shuffled prior to spinning the wheel, is the shuffle really random? Yes, the shuffle is random. It uses the Durstenfeld algorithm, a computer-optimized variant of the Fisher-Yates shuffle.
 - d. Can someone rig the wheel? No, the algorithm used to determine a winner is not able to be modified to rig the results. The winner is determined by the PRNG software used by www.wheelofnames.com
10. After the winner is determined, the two E-bikes will be shipped directly to the winner's address.
 11. The winner is responsible for using the E-bikes in a safe manner and abiding by all federal, state and local laws. By buying a ticket, the winner acknowledges that they are responsible for their actions and that SAA will not be liable for consequences of using the bikes after the raffle. A helmet is highly recommended for bike riding.
 12. When purchasing a ticket online, be sure to note "E-bike raffle" and provide your name, address, phone number and email. SAA will record your ticket number and enter you in the raffle. SAA will also use this information to notify the winner and convey information about future events.
 13. Point your phone camera at the QR Code image below for Venmo or PayPal payments.
